

Anabolic Therapies for Osteoporosis: Effectiveness and Value

Key Stakeholder Organizations

ICER has identified the following organizations as key stakeholders for its review of anabolic therapies for osteoporosis. ICER has invited input from the following organizations, and welcomes suggestions from the broader community on additional organizations to add to this list. ICER also receives input from independent patients and clinicians, and invites the public to submit recommendations for key stakeholders in these categories.

For a complete list of key dates and opportunities for input on this project, please visit [ICER's website](#).
